DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Since The Board of Patent Appeals and Interferences Board affirmed the rejection of claims 1, 3-7, 9-16, 18-22 on 7/21/2005, they are canceled by the examiner in accordance with MPEP 1214.06.

The application has been amended as follows:

✓ Claims 1, 3-7, 9-16, 18-22 are canceled. .

Drawings

2. The informal drawings furnished on 04/27/2000 are not of sufficient quality for publishing them. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The formal drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for formal drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 23-31 are allowed. Claims 23, 30 and 31 are independent. Claims 24-29 are dependencies of claim 23.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 23-31

The prior art of record before 04/27/2000[Instant application was filed on this date] neither anticipates nor fairly and reasonably teaches a computerized method and an article of manufacture for conducting communication with a site/server via data communication network comprising, inter alia, the steps of a computer controller returning the list of applicable certificates to the user in response to automatically detecting presence of a received request for a list of mobile station accessible certificates, and in response to the user selecting one of the certificates communicating with a source of the selected certificate for completing the certificate and passing the completed certificate to an access application for responding to the request received from the server/site (see independent claims 23, 30 and 31).

Applicant's remarks in the Reply Brief (see page 11) submitted on 10/30/2003, that is the prior art of Wang "does not disclose or anticipate a list of certificates from which the user may select" are compelling and consistent with Board's decision, see pages 7-8, of the "Decision on Appeal" mailed on 7/21/2005.

4. Discussion of most relevant prior art:

The following references have been identified as most relevant prior art to the claimed invention(s).

The most closely applicable prior art of record is referred to in Paper 12, Final action mailed on 7/16/2003, that is Wang (US Patent 6,175,922 B1). Wang 's invention is directed to completing an electronic transaction between a server and a requesting device, such as a computer terminal including a portable device via a portable electronic authorization device [PEAD] (see at least Fig.2, col.4, line45-col.5, line 3). However Wang fails to render obvious the application's above-mentioned underlined unique features(s) for independent claims 23, 30 and 31. Please refer to Applicant's arguments in the Reply Brief on page 11 submitted on 10/30/2003, that is the prior art of Wang "does not disclose or anticipate a list of certificates from which the user may select". These arguments are compelling and consistent with Board's decision, see pages 7-8, of the "Decision on Appeal" mailed on 7/21/2005.

5. The Foreign prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

(i) Foreign patent WO 99/27742 to Kingdon et al. discloses a telecommunication system and method utilizing a mobile terminal based browser to connect the mobile terminal to web-based location services and to a mobile positioning center allowing for graphical display on the mobile terminal of the current location of it (see at least page 5, lines 1-10). Kingdon et al. fails to render obvious the application's above-mentioned underlined unique features(s) for independent claims 23, 30 and 31.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yogesh C. Garg whose telephone number is 571-272-6756. The examiner can normally be reached on M-F(8:30-4:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wynn Coggins can be reached on 571-272-7159. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
